PROJECT

Sales Performance & Customer Distribution Dashboard (Power BI)

Designed an interactive Power BI dashboard to track regional sales and customer demographics across India. Leveraged dynamic filters and cross-functional visuals to analyze market penetration and KPIs, enabling stakeholders to identify high-performing regions and optimize customer targeting strategies

E-commerce Sales & Profit Analytics Geo-Dashboard (Power BI)

Built a Power BI dashboard to track Profit and Sales across India. I used interactive Map visuals to show which regions are performing best. This tool helps the business easily identify top cities and monitor customer growth using clear key metric cards.
